JOLIKE MP3 player works with any brand SD card up to 128 GB. If SD card can't be read, please make sure the card can be read by other device first. If you believe the card is fine, please contact us for further help.(See Cover)

2.Create your own Playlists

When you connect mp3 player to PC, you can create folders in the mp3 player or SD Card. These folders can be used as Playlists.
If you drop some musics in one folder, and then unplug and go to "Folder view" icon on MP3, you can only play and shuffle these musics in the folder.

3.Sorting as same as on PC

Audio Book lovers usually need to make sure all files in the order they want. Unfortunately MP3 or SD Card's memory designed different from PC's storage. Thus you need some trick to sort files as same as on PC.

Here's the steps:

1, Prepare the audio files and sort them on PC.

2, Select all files, but do not copy (Important).

3, Move your mouse cursor to the first file, and copy.

4, Paste files to mp3.

5, Unplug mp3 and go to "Folder view", all files will be sorted exactly as same as on PC.

MP3 and SD card's memory will sort file by edit time, the first file be dropped in will be list as first edited file. If you change the file name or do some other modification, it'll go the last of the list. This trick only works on "Folder view" icon, not on "Music" icon. Don't forget add a bookmark when you use audio book.

Support and Troubleshooting

Q: How to transfer music to the mp3 player?

A: Download music to your computer first, and then connect mp3 player with your computer thru charging cable. A new disk will pop on as flash driver, and drop all your musics to the disk.
You can create folders in the disk to sort your music.

Q: Why my computer can't detect mp3 player?

A: JOLIKE Mp3 player can be paired for all computer system with latest USB driver. Please update your USB driver before plug in Mp3 player or try another charging cable. It you still can't connect the Mp3 Player to you computer, please contact customer service team for additional help(See Cover).

Q: How can I continue audio play after turn the player off?

A: You can not continue your play after turn off the player. However, if the player is in sleep mode, you can continue your play by wake it up.

Q: Why buttons on the player can't work?

A: Sometime customer will accidentally active lock screen function which prevent button been used. Please see"Lock Screen" to unlock the button. If it still won't work for you, please contact Customer Service to claim your warranty. See Cove
