**H-80**

## Product Specification

| HEXA(H)-80 |                              | Pre-dispersed Polymer Bound  |
|------------|------------------------------|--|
| Function   |                              | Adhesion Agent   |
| Product    | Composition                  | Mixture of 80% hexamethylene tetramine and<br>20% polymer and dispersing agent |
|            | Description                  |  |
|            | Appearance                   | Grey-white granules  |
|            | Density (g/cm <sup>3</sup> ) | Approximately 1.15   |

## Application Notes

|     |   |
|-----|---|
| Use | HEXA-80 is a slow-acting accelerator, which is often combined with resins |
|-----|---|

## Henan Rongxin Technology Co., Ltd.

|           |  |
|-----------|--|
|           | formaldehyde donor for the rubber-to-steel bonding and increase hard                   |
| Dosage    | 1 -2 Phr HEXA-80C +2 - 3.5 Phr R-80 ( as formaldehyde donor ) ;0.5 - 5<br>accelerator) |
| Packaging | 25 kgs in carton box with polyethylene bag liner                                       |
| Storage   | Keep cool (below 25°C) and dry in original package.12 months from pro                  |
