

Certificate of Appretiation

With great gratitude the medical staff of Örnsköldsviks Hospital in the county of Västernorrland, Sweden, recieved a donation of personal protective equipment from China Rail and Tunnel Group, CRTG Sweden.

We recieved the donation on the 18th of March 2020. At this time our stock on facemasks were very low.

There is no doubt in our minds that this has contributed to protect our staff and mitigate the spread och SARS-COV2-19 among staff and patients.
